The diagram illustrates a Hub-and-Spoke model with two firms. At the center is a large red circle labeled "HC". Two smaller white circles are positioned vertically above and below the central circle. The top circle is labeled "Huber Cl..." and the bottom circle is labeled "Huber CN...". Each of these outer circles has a small red dot at its top or bottom center. A dashed grey line connects the two outer circles, passing through the central "HC" circle. A red line connects the central "HC" circle to each of the two outer circles. A red rectangular box containing the text "2 Firmen" is located to the right of the central "HC" circle.
