The diagram illustrates the relationship between a central entity, VA, and three other entities: ArcFlow, Vectorso, and Transpo. VA is represented by a large red circle in the center. The three other entities are represented by smaller white circles with red dots, arranged in a triangle around VA. A dashed line connects the three outer circles, forming a triangle. A red box labeled "3 Firmen" is positioned near the center of the triangle, indicating that there are three firms involved. The labels for the outer circles are "ArcFlow ..." (top), "Vectorso..." (bottom left), and "Transpo ..." (bottom right).
