The diagram illustrates a simple network structure. At the center is a large red circle labeled 'FS'. Two smaller white circles with gray borders are positioned vertically above and below the central circle. The top circle is labeled 'Flepp Au...' and the bottom circle is labeled 'Flepp SA'. Each of these peripheral circles has a small red dot at its top. A dashed gray line forms a circle around the central 'FS' node, passing through the centers of the two peripheral nodes. A red line connects the central 'FS' node to each of the peripheral nodes. A red rectangular box with the text '2 Firmen' is located to the right of the central 'FS' node.
